PRODUCT REVIEWS

Eric

The product dosage recommendations are perfect. Now the pH is mastered. And I use tablets four times less often than before.

Isabelle

I will not hesitate to recommend this product to my friends that have pool. Thanks again.

Marc

What we love is the ease of use, the intuitive interface, the precise measurements, the battery life (estimated to last the season), the quality of the materials, and the object's design and especially the peace of mind that ICO gives us.
